

REGENCY™

Dark Island Medical Facility

The Dark Island Medical Facility is a private site for the use of Regency Group members deemed important enough to demand the high levels of medical care available here.

The Facility is not well-known, and remains an unofficial secret of the Regency Group. It is here that particular patients can rest and recuperate after receiving injuries on important Group business.

Currently disused, the Facility is still operational, awaiting the next unfortunate Group Members to require treatment.

Dark Island Medical Facility

Staff List

There are usually a number of Regency Group staff based at the Dark Island Facility. The most important are listed below.

Group Members must have a security rating of at least Secret to work inside the Facility.

Note that, due to recent refurbishments at the Facility, there is a skeleton staff working at present. Those personnel still based at the Facility are marked with an asterisk.
